ERGOLINE PRESTIGE SERIES

Prestige, the new Ergoline flagship series, sets new standards for salons. Its Extreme Power technology delivers up to **133 kJ/min** for maximum tanning. The Prestige also leads the way in terms of luxury features, design, ergonomics, quality and ease of service.

P. 13-15

ERGOLINE ESPRIT SERIES

The Ergoline Esprit Series ushers in a new design trend. Impressive curves and colors combined with brilliant mood lights give this series an unmistakable appearance. With beauty on the outside, each model comes equipped with powerful tanning technology on the inside delivering up to **123 kJ/min**.

P. 16-17

ERGOLINE OPEN SUN SERIES

Feel like more tanning freedom? The Ergoline Open Sun 1050 and 550 are pioneers in open tanning. Your customers will appreciate total power and intense tanning delivering up to **142.5 kJ/min** in the Open Sun 1050. This high-pressure sunbed leaves nothing to be desired.

P. 18-19

ERGOLINE AFFINITY SERIES

The Affinity series offers a wide range of innovations and equipment highlights. All affinity models come standard with Ergoline's Ultra Performance high-pressure facial technology and deliver up to **117.8 kJ/min**. A special design feature allows changeable mood and ambient lighting to match a salon's interior.

P. 20-23

ERGOLINE INSPIRATION SERIES

The new Inspiration series gives you comfort that you'll hardly find anywhere else in this sunbed class. Its level of premium features, exciting styling, light design, generous space in the tanning tunnel and, above all, up to **72.7 kJ/min** UV performance have set new standards.

P. 24-25

ERGOLINE ADVANTAGE SERIES

This is how beautiful the intermediate category can be. Ergoline's Advantage series provides full-powered tanning delivering up to **69.3 kJ/min** with a spacious tanning tunnel. In combination with the plethora of features it provides, the Ergoline Advantage 400 is the perfect addition to any salon.

P. 26-27

ERGOLINE AMBITION SERIES

The Ergoline Ambition series has proven Genesis performance to impress and rock-solid durability to last. The gorgeous, modern look and bold starlight design in these sunbeds is unique in this class and will turn heads – and profits! Delivering up to **55.3 kJ/min**, the Ambition series gives you plenty of tanning power for years of operation.

P. 28-29

ERGOLINE STAND-UP SERIES

The Ergoline Stand-up series delivers up to **89.2 kJ/min** with powerful, 2-meter tall UV lamps. The lifestyle motifs on either backlit, decorative glass or sleek aluminum are genuine eye-catchers in any salon and spark the desire for an attractive tan.

P. 30-31

QUALITY PAYS

TEN GOOD REASONS FOR ERGOLINE

Successful tanning professionals know what it takes to prosper in the tanning business – solid products, excellent customer service, industry-leading knowledge and well-known brand names. Choosing Ergoline gives you that competitive edge.

Ergoline offers customized concepts to meet the requirements of any business. Whether buying or leasing, salon owners are always on the sunny side with Ergoline.

EXCELLENT BRAND NAME

Ergoline is the #1 supplier to professional tanning salons and has been setting the standards in the tanning industry for decades. One of the most recognized brands for salon owners and tanning customers alike, Ergoline sunbeds offer innovative UV technologies, exclusive designs, excellent workmanship and high resale values. All of these have taken the Ergoline brand to the top. Deciding on a professional sunbed from the world-wide market leader means setting the scenes for success in the tanning business.

INNOVATIVE UV TECHNOLOGIES

Ergoline is synonymous with tanning power. Innovative, efficient and powerful UV technologies ensure an especially deep tan. Facial tanning systems, with their combination of glass reflectors and filter panels, provide impressive proof of Ergoline's UV mastery. The Ultra glass reflectors use computer-modeled geometry to provide maximum UV reflection and transmission performance. The specially coated filter panels are an exclusive feature of Ergoline facial tanning systems. These filters allow only the effective components of the UV spectrum to be reflected. Ergoline's internal research and development center regularly introduces cutting-edge innovations – such as Dynamic Power, Ultra Performance Technology and Advanced Reflective Tanning – to improve the tanning performance and energy efficiency of our sunbeds.

FUTURISTIC DESIGN

World-class design that creates a symbiosis of light and function is Ergoline's trademark. You won't find superficial fashion trends on our sunbeds. Clear lines, lustrous surface finishes and fascinating lighting effects will enthrall your customers now and in years to come. The ultimate goal of design is to give tanners an attractive, eye-catching look. Ergoline continues to set new trends with exciting effect lighting and radiant design elements. The resulting powerful illumination is an irresistible invitation for tanning. The more varied the lighting, the more uniquely distinctive the appearance – a main characteristic of Ergoline.

GUARANTEED QUALITY

All components we use in our sunbed production are made of first-class materials, which are all tested for resistance against UV light, cleaning fluids and other potential hazards. Our state-of-the-art manufacturing technologies, qualified staff and meticulous craftsmanship ensure consistency and dependability. Every Ergoline sunbed undergoes a variety of functional tests before it leaves the factory. Anyone investing their money in purchasing an Ergoline professional sunbed has the certainty of being able to rely on absolute quality.

EXCELLENT SERVICE

If you should experience technical problems with one of your Ergoline sunbeds, we have a complete service network to fix the problem. Just contact your local Ergoline trained and approved distributor for prompt and efficient resolution of the problem. In addition, Ergoline continues to stay ahead of the competition with the inclusion of an online knowledge base. There you can find answers via a solution database, submit a question to technical support staff and send feedback. Providing additional methods of technical support is one of the many ways that Ergoline shows dedication to its customers.

ERGONOMICS SECOND TO NONE

Ergoline integrates ergonomic shapes for unsurpassed tanning comfort – a design philosophy we believe in so much that we have based our brand name on it. The new extra-wide Body Shape acrylic with integrated head rest, comfortable arm rests and variable foot rests provides maximum tanning comfort and reduces pressure points for a seamless tan. Adding to comfortable ergonomics are Ergoline's luxurious comfort features. Temptronic air-conditioning lets tanners set their desired temperature, whether warm or cold. Aqua Mist & Aroma gives your customers a refreshing experience. Innovative sound systems provide perfect listening pleasure.

EFFORTLESS MAINTENANCE

Every Ergoline sunbed has been designed to ensure that all components that require servicing are easily and quickly reached. Low-maintenance materials make cleaning simple and easy for salon personnel. Furthermore, Ergoline has set a benchmark in ease of service with its integrated infrared interface. PDA handhelds and laptops using exclusive software give salon operators even more convenience with password-protected access to all of the sunbed's main servicing and control parameters. If a problem does arise that you cannot fix yourself, Ergoline customer service technicians provide a fast and professional solution. With quality you can rely on, tanning professionals can expect trouble-free operation.

DISTRIBUTOR NETWORK

Ergoline is represented throughout the United States, Canada and Mexico by the industry's most experienced team of sales, service and support professionals. Ergoline's distributors stock equipment, parts, lamps, etc. and maintain toll-free service lines to handle all of your needs promptly and courteously. Experienced delivery and setup crews are also readily available.

EXCELLENT SUPPORT FOR YOUR SALON

Ergoline provides high-profile advertising and point-of-sale support with high-impact marketing concepts and attractive campaign materials. It's no secret that creating eye-catching marketing and promotion material is vital to the success of your salon. Ergoline has an extensive selection of photos as well as a complete line of ready-made and customizable posters, postcards and leaflets. The merchandise from Ergoline offers you a huge selection of excellent promotional material that has been specially designed for tanning salons. Whether you need incentives for your regular customers or eye catching posters to get the attention of new customers, Ergoline has many items for your business.

ENVIRONMENTALLY FRIENDLY

We don't just pay lip service to environmental protection and sustainable use of our world's resources. The entire JK Group has subscribed to the stringent guidelines set in VO EC 761/2001 and EN ISO 14001:1996 with regular internal and external environmental protection audits. All electronic components that we use comply with the RoHS directive.

In the USA, Ergoline reduces the amount of manufacturing waste by using post-consumer recycling in our products, recycling excess metal and aluminum during production and installing special ballasts that help to control electricity usage and extend lamp life in our newest sunbeds.

DYNAMIC POWER

Ergoline has opened a **new era in UV performance** with its **future-oriented Dynamic Power technology**. Using **auto-adjusting ballasts**, this innovative technology is geared towards **maximum UV output** and delivers approximately **25% extra output per watt of energy input**. Furthermore, this technology compensates and maintains the **maximum power level throughout each lamp's lifespan**. The brand-new **Dynamic Power technology**, which is exclusive to Ergoline, is featured in the **Prestige** and **Esprit** series where their **200-watt UV lamps** will impress even the most seasoned tanners.

DYNAMIC POWER IN:
PRESTIGE 990
ESPRIT 770

EXTREME POWER

Using the same components as you will find in Dynamic Power technology, Ergoline ups the ante with its **Extreme Power technology**. Geared towards **maximum UV output without compromise**, **Extreme Power** is available exclusively on the **Prestige 1100** and ensures an especially deep, long-lasting and natural-looking tanning effect in the difficult-to-tan facial area. **Three supplemental 15-watt UV-B spaghetti lamps** are added to the high-pressure units in order to **increase the tanning power** for your most demanding customers. The results they get are more than just extreme, they're **awe-inspiring**.

EXTREME POWER IN:
PRESTIGE 1100

ULTRA PERFORMANCE TECHNOLOGY IN: PRESTIGE, ESPRIT & AFFINITY SERIES & OPEN SUN 1050

ULTRA PERFORMANCE TECHNOLOGY

Exclusive high-pressure technology impressively demonstrates Ergoline's superior UV competence. The revolutionary **Ultra Performance system** combines an **optimized glass reflector** and **specially coated filter glass**. The improved glass reflector performs with **35% more UV output** and features special reflector geometry for a deeper and more intense tan. Featuring **computer-designed geometry**, the Ultra reflectors deliver unequalled performance and balanced UV-A and UV-B wavelengths. Combined with specially coated filters, they ensure that **only the most effective portions of the tanning spectrum are reflected**. Unwanted heat and infrared rays are transferred away from the tanner and are thus largely eliminated. The high-pressure tanning technology, through advanced engineering and first-rate results, is what separates Ergoline from its competition.

A.R.T. ADVANCED REFLECTIVE TANNING

UV power takes a different route to the customer with **A.R.T. (Advanced Reflective Tanning) facial technology**. Ergoline developed this technology for customers who disliked the "closed-in" feeling of traditional sunbeds and wanted unobstructed tanning freedom. Eliminating the usual tanning tunnel over the face, A.R.T. gives customers that real convertible feeling and allows them to tan as if they were under an open sky. The **800-watt, high-pressure UV units** – arranged along each side of the base – project the UV rays right onto the glass reflector surface on the upper part of the sunbed. The Ultra coating **only reflects those UV components useful for tanning**. Additionally, a very even and uniform distribution of the UV light is achieved due to the **computer-modeled positioning** of the UV components.

A.R.T. IN: OPEN SUN 550

NEW

THE NEW BLOCKBUSTER

The new Ergoline **Prestige 1100 in Mystic Black** gives tanners an extreme experience. 52 Dynamic Power, 200-watt UV lamps for a deep body tan, the advanced facial tanner system with 4 Ultra Performance high-pressure units and 3 additional UV-B spaghetti lamps leave nothing to be desired, while 2 **high-pressure shoulder tanners** with Ultra Performance technology seal the **Extreme Power package**. Thanks to acrylic panels at the head and foot ends of the sunbed, individual temperature levels are achieved quickly and maintained throughout the session with **Temptronic Plus**. These panels also help shield against external noise and allow your customers to fully enjoy the impressive **3D-Sound** system with its **MP3 dock-in** and **SD card slot**. **Aqua Mist & Aroma** provide a refreshing experience, while the innovative cockpit control – with its clear symbols, user-friendly **Voice Guide** and full-text display – grant total ease of use.

SPECTACULAR LIGHT SHOW

Treading the light fantastic – the new **Prestige 990** is ahead of its time in professional sunbeds with its expressive **Fashionpink Orange** design. This fascinating light design with colored **Mood Lights** is so alluring and its spacious tanning tunnel and extra-wide **Multi Relax** base acrylic emphasize the promise of luxury. Its standard **Temptronic climate control** and **Aqua Mist & Aroma** ensure a refreshing tanning experience. Optional features available include a shoulder tanner with **Ultra Performance technology**, and the new **3D-Sound system with subwoofer** that will not only delight your customers with its full sound, but they will also be able to play their own favorite music using the **MP3 dock-in**. Operating the sunbed is particularly easy due to the **innovative cockpit** control with its clear symbols, full-text display and available user-friendly **Voice Guide**.

NEW

THE JEWEL IN THE CROWN

The new **Silverpearl Blue Prestige 990**, with 200-watt **Dynamic Power UV lamps**, creates an aura of timeless elegance and attracts customers with its unique appearance and features. The interior is equally impressive with a spacious tanning tunnel, extra-wide **Multi Relax** base acrylic and the innovative **cockpit control** to make tanning an effortless experience. Individual comfort is achieved with the **Temptronic climate control system**. A **high-pressure shoulder tanner** for a deep, lasting tan on the shoulders is available and music lovers will definitely appreciate the availability of the new **3D-Sound system** complete with **subwoofer**, **MP3 dock-in** and **SD card slot**.

SETTING THE PACE

For trend-setting tanners – the new **Esprit 770 in Silverpearl Red** gives this sunbed its fashionable look. Inside, the wide Multi Relax base acrylic with its arm rests and adjustable foot rests ensures a particularly relaxing tanning session while its 200-watt Dynamic Power UV lamps will give your customers consistently excellent results every time. The **innovative cockpit control** with its clear illuminated symbols, along with full-text display and available Voice Guide, make it very easy to use. **Temptronic** climate control will give your customers ideal individual temperature comfort – whether warm or cool. Optional extras for the Esprit 770 include **high-pressure shoulder tanners** with efficient Ultra Performance technology for a perfect all-around tan and the new **3D-Sound system**. This system, with **subwoofer**, **MP3 dock-in** and **SD card slot**, turns the sunbed into a concert hall for an individually tailored music performance.

FREE THE POWER

The **Open Sun 1050 Ultra Power** makes a statement with **30 high-pressure units** perfectly aligned along the canopy and base. With its superior glass reflector technology and filter glass expertise, this Ergoline sunbed demonstrates to the most discerning tanners how powerful, yet at the same time cool and airy, high-pressure tanning can be. Comfort features like the **Multi Relax acrylic**, available **stereo sound package** and the powerful Fan Cooling Plus make the tanning session fly by. The Open Sun 1050's massive power and features are controlled by a soft-touch panel with 32-field LED display. All operating controls are within easy reach of the tanning client and are marked with simple picture icons. Underlining its power, the Open Sun 1050 is designed with strong lines, gorgeous ambient lighting, logo illumination, modern high-end colors and **Radiant Sterling Blue** paint finish. This unit will draw customers from near and far and is a true masterpiece for any salon.

SETTING THE TREND

The futuristically styled Ergoline **Open Sun 550** in its exciting **Blue Silver** or **Magenta Silver** color will give your customers the feeling of being in an open top convertible as they tan – perfect for clients who dislike the “closed-in” feeling of traditional beds. **A.R.T. technology** (Advanced Reflective Tanning) makes this possible. Two **800-watt high-pressure units**, arranged along the sides of the base, project the UV rays right onto the glass reflector surface on the upper part of the sunbed. Combined with **45 Turbo Power lamps** for the body area and a reflector in the shoulder area, the Open Sun 550 provides fantastic tanning results. **Air Condition Plus** keeps tanners comfortable and the wide Multi Relax base acrylic with its integrated headrest, relaxing armrests and variable footrests makes every tanning session especially enjoyable. All of the sunbed's tanning functions are easily set via the control panel with its intuitive symbols.

POWERFUL DEBUT

The **new Affinity 950 Ultra Power** comes standard with outstanding tanning performance and comfort features. **20 high-pressure lamps** in the canopy and on the side plus **19 Turbo Power UV lamps** in the base give a deep and long-lasting tan. The facial tanners are equipped with efficient Ultra Performance technology and the additional shoulder tanners provide an even, all-over tan. The **Temptronic** climate control system gives your customers a cool and relaxing tanning experience. The available stereo sound system will satisfy any audiophile with its high quality sound. The Affinity 950 will enhance any salon's ambience with its luminous silver design as well as mood and ambient lighting with changeable colors in blue, magenta, yellow or red.

THE SCENE IS SET

With **51 Turbo Power 160-watt UV lamps**, **4 Ultra Performance 520-watt facial tanners**, a reflector neck tanner and optionally available shoulder tanner, the **Affinity 800 Turbo Power** is a true UV powerhouse. Along with power, this model is also setting the standard in terms of comfort. The wide Body Shape acrylic provides a relaxing tanning position while the clear layout of the control panel makes operating the sunbed effortless. The **Temptronic** function keeps the client's desired temperature constant throughout the entire tanning session. With just the simple press of a button, the **Aqua Mist & Aroma** functions dispense a refreshing spray over the face and body and also work in harmony to neutralize the typical UV fragrance. An optionally available **stereo sound system** (including the Voice Guide function) promises first-class audio quality. The Affinity 800 is available with mood and ambient lighting in blue, magenta, yellow or red.

FASHIONABLE APPEARANCE

With its **46 Turbo Power UV lamps** and **3 Ultra Performance facial tanners**, the intermediate model of the Affinity Series provides an excellent tanning result. The wide Body Shape acrylic, with an integrated headrest, variable footrests and comfortable armrests, ensures a relaxing tanning experience from beginning to end. Standard **AC Plus air-conditioning** keeps customers cool and comfortable even during the longest tanning session. The control panel on the Affinity 600 is clear and easy to use with self-explanatory buttons. A premium **sound system** (including the Voice Guide function) is optionally available and enhances an already enjoyable tanning experience. The Affinity 600 is available with mood and ambient lighting in blue, magenta, yellow or red.

A SUCCESSFUL ENTRANCE

The **Affinity 500's 43 Turbo Power UV lamps** and 3 Ultra Performance facial tanners will impress any tanning enthusiast. The standard **reflector neck tanner** and optional **shoulder tanner** result in a seamless tan. The comfort level in this sunbed is extraordinary for its class. The Body Shape acrylic, with its extra-wide surface, allows clients an amazing amount of movement so they can find just the right position. In addition, the Comfort Cooling ventilation is continuously adjustable and keeps tanners cool. A high-quality stereo sound system (including the Voice Guide function) is an available option. The Affinity 500 is available with mood and ambient lighting in blue, magenta, yellow or red.

NOW STARRING

The new **Inspiration 450** is a sunbed with features that salon owner's have been dreaming about. **Eye-catching styling** in Sky Blue and a fascinating light design element give this sunbed an unmistakable look. Ensuring a perfect, all-around tan, the Inspiration 450 has Turbo Power **180-watt, 2-meter long UV lamps** in the base, 160-watt UV lamps in the canopy and **4 facial tanners** at 400 watts each. The Inspiration 450 also sets standards for comfort. **Air conditioning**, a large tanning tunnel and a wide, ergonomically-shaped acrylic all offer a cool and relaxing tanning session from start to finish. Clients can enjoy music with the optional **stereo sound system** complete with MP3 dock-in and SD card slot for a totally customized experience.

RAISING THE BAR

The **Inspiration 400** provides a beautifully natural tan with Turbo Power **180-watt, 2-meter long UV lamps** in the base, 160-watt UV lamps in the canopy and **3 facial tanners** at 400 watts each. Besides its power, the Inspiration 400 provides a level of comfort that you will not find anywhere else in this class of sunbed. The design in Solid Silver, together with the **multi-colored Mood Lights**, give it a phenomenal appearance. The wide, ergonomically shaped base acrylic, generously proportioned tanning tunnel and **Comfort Cooling** ventilation give clients an especially pleasant tanning session. An optionally available **stereo sound system**, complete with MP3 dock-in and SD card slot, adds to an enjoyable tanning experience.

TANNING WITH STYLE

The **Advantage 400** imparts excellent tanning results with a perfect combination of **3 VIT Max high-pressure facials**, **40 Turbo Power tanning lamps** and a **reflex neck tanner**. In addition, it features a relaxing Bodyform Plus base acrylic with integrated headrest. Its **Comfort Cooling ventilation**, with cool air coming from facial and body zone outlets, is infinitely variable and keeps clients feeling fresh during the tanning session. Another enjoyable feature in the Advantage 400 is an audio system that offers perfectly reproduced stereo sound. A user-friendly control panel is easily reached by clients so they are always in charge of the tanning functions. To help ease service time for salon operators, the Advantage 400 features an **Infrared (IR) Function**. This gives password-protected access to all main sunbed parameters.

A STRONG PERFORMER

The strength of the **Ambition 300** is apparent by its use of **40 Genesis technology** Turbo and Super Power lamps, **high-pressure facial tanners** and extended tanning surface. The large rotary fan is quiet, yet it sends a refreshing stream of cool air to produce a pleasant tanning environment. Tanning clients are kept at the perfect temperature so they don't lose their cool. Continuing the Ambition 300's comfort is its perfectly shaped acrylic. The **Body Curve acrylic's extended tanning surface** positions the tanner for an even distribution of UV light and makes it as comfortable as a much larger sunbed. All the power in the Ambition 300 is easy to control thanks to the easy-to-understand and well-placed buttons. Its **bold starlight design element** stands out from the crowd and gives it a style all its own in this class of tanning bed. An available **stereo sound system** provides music enjoyment. Available colors are **Racy Red Blue** and **Midnight Black**.

TAKE A BOW

The **Ambition 250 & 200 Super Power** pack a lot into an efficient space. Their compactness means you can install them almost anywhere, making these sunbeds particularly good where space is a premium. Engineered with perfect results in mind, the Ambition 250, with its **high-pressure facials** and the Ambition 200 with its Super Power UV lamps, are loaded with tanning power to spare. Keeping clients cool and comfortable with all this power is a large, yet quiet, rotary foot fan. Comfort as well as its tanning results benefit from the **Body Curve extended tanning surface**. It softly supports customers while positioning them perfectly for an even distribution of UV light. An available stereo sound system provides music enjoyment. These head-turning sunbeds are available in **Racy Red** or **Midnight Black** color.

STANDING OUT FROM THE CROWD

50 Turbo Power 2-meter tall tanning lamps aligned using the **Surround Tan concept** ensure a deep, all-over tan in a brief tanning session. A main attraction of the **Ergoline Lounge** is its **integrated Comfort Cabin**. This changing room is built into the rear area of the Lounge and is equipped with every feature needed to make getting undressed and dressed a comfortable experience. An additional benefit of the Comfort Cabin is that a separate changing room is not necessary. This gives salon owners a variety of combinations for use as a **stand-alone solution**. Further enhancing comfort is the **Fan Cooling system** that creates a pleasantly cool atmosphere throughout the tanning session. This large fan is necessary due to the enormous amount of space within the Lounge, which gives clients unprecedented freedom of movement during tanning.

THE LOOK THAT GETS NOTICED

The **Vertical's 48 Turbo Power 2-meter tall tanning lamps**, arranged utilizing the **Surround Tan concept**, provide a great tan that is achieved in a quick tanning session. The Ergoline Vertical, with its **comfortable ergonomic handholds**, allows customers to find their ideal tanning position. Placed near the handholds is one of the simplest and easy-to-understand control panels as well as a **Voice Info feature** that automatically announces when the session is 1/2 complete and over. Additional features in the Vertical are its **Fan Cooling** ventilation that can be infinitely varied to individual preferences and its **Sound Box music system**.

Air Delivery & Technical Specifications

- Optional exhaust plenum
- Total power consumption (in watts): 18,500
- Electrical requirements: 230V 30 or 230V 10
- Circuit Breaker recommended: 80A / 3-pole 30 or 100A / 2-pole 10
- Number of wires required: 4 30 or 3 10
- Weight (in lbs): 1,500
- Dimensions closed (LxWxH in inches): 94 x 63 x 61
- Dimensions open (H in inches): 79
- Recommended room size (in feet): 10 x 9
